

YORKER

THE SMART WATER MANAGER

**Intelligent Chemical Dosing System
for Cooling Tower & Chillers**

**Water quality analysis and
reporting to management**

Two Decades of relentless pursuit of solving water related problems of the industry, Scale Guard has pulled out all the expertise, experience and in depth knowledge of issues faced by the industry, we are proud to announce the launch of our path breaking product **YORKER THE SMART WATER MANAGER / CONTROLLER** to give complete peace of mind to company management regarding 24 X 7 monitoring and control of water quality for their Cooling Tower Systems / Chillers.

AUTOMATED WATER CONTROL

The system tracks the amount of make up water added to the cooling tower / chiller circuit

MONITOR & MAINTAIN WATER QUALITY

The system monitors the pH & TDS of water and maintains it at a specific set point which is user adjustable

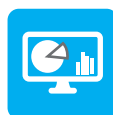

AUTOMATIC DOSING OF CHEMICALS

Chemicals are automatically dosed in specific ratios in proportion to the amount of water added

ELIMINATE HUMAN ERROR

Automation eliminates human error and ensure accurate chemical dosing which results in consistent good water quality over a long period of time

24 x 7 AUTOMATED QUALITY CONTROL AND REPORTING

Daily, Weekly and Monthly reports to Management

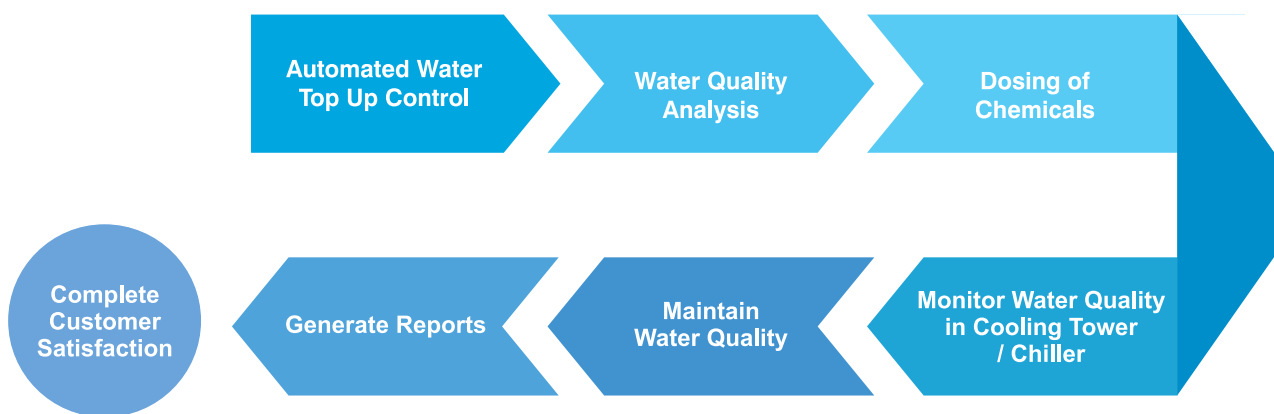

ABOUT THE PRODUCT

When plant engineering team is busy to meet companies target they normally get bowled out by poor performance of cooling towers, chillers and utility. Scaling, corrosion and biological growth are the major cause for failure. Scale Guard's **YORKER** is the best solution to be back in the match and winning.

The **YORKER** is executed accurately when our technical team analyse & understand customers requirement on ground.

Our vast experience to deliver the result traps system Loop Holes & makes it perfect delivery.
